

little HEROES^{OF} INCLUSION *award*

THE WHY

As part of the campaign, we invite preschools in Singapore to nominate children who have been examples of good inclusive practices. This is an annual effort to recognise and encourage them.

Through the award, we hope that they will inspire others to learn, play, contribute and participate meaningfully in the classroom and the community.

THE WHAT

The Good Start SG movement aims to raise children who are exemplars to others, both children and adults alike, hence the Little Heroes of Inclusion Awards.

We hope to inculcate values integral in creating an inclusive society, such as compassion and acceptance. We want to raise them to be active change agents that are capable of shaping a compassionate meritocracy for the generation after ours.

THE HOW

Award finalists are selected based on evaluations by a panel of expert judges who will review and score each nomination. There will be a total of 10 finalists based on the judges' scores. Each nomination is reviewed by three judges; the average of these scores is what determines the final score.

Nominations are only open to schools in Singapore and parental consent must be given.
